Abdelrahman Eltabaa

Software Test Engineer

012-126-37455 | abdo.tabaa5@gmail.com | Cairo, Egypt
LinkedIn | GitHub | Portfolio

Professional Summary

Software Test Engineer with a Computer Engineering background and hands-on experience in the STLC. Skilled in executing manual and automated testing across UI, API, and Database levels. I thrive in Agile environments, utilizing Shift-Left practices and GenAI to streamline test execution. I am dedicated to catching bugs early and collaborating with cross-functional teams to deliver high-quality enterprise solutions.

Professional Experience

Quality Assurance Engineer Sep 2025 – Present
iNNOTECH On-site

- Executed comprehensive manual, functional, and regression testing for enterprise business systems (ERP, CM, CRM, HR, Financial), ensuring system reliability and adherence to strict business logic.
- Architected detailed test plans and scenarios mapped directly to complex business requirements to maximize test coverage.
- Administered the end-to-end defect lifecycle and sprint task management utilizing **ClickUp** and Jira, streamlining bug reporting workflows and fostering seamless cross-functional collaboration within Agile teams.
- Conducted robust API testing using Postman to validate backend services, request/response structures, and data integrity.
- Leveraged **Generative AI (GenAI)** across the **STLC** to optimize test planning, accelerate test case design, and elevate overall testing efficiency.
- Collaborated actively within an Agile/Scrum environment, verifying complex workflows, participating in sprint ceremonies, and driving continuous quality improvements.

Education

Tanta University Jun 2026
Bachelor of Engineering, Computer Engineering

- ▷ Cumulative GPA: Excellent

Certifications

ISTQB® Certified Tester Foundation Level (CTFL v4) – ID: 260422018 Feb 2026
Core Focus: Testing Fundamentals, Agile Testing & SDLC, Test Management, and Defect Lifecycle.

ISTQB® Certified Tester Mobile Application Testing (CT-MAT) – ID: 260820003 Aug 2026
Core Focus: Mobile Device Types, Mobile Testing Types, Test Automation, and Emulators/Simulators.

Generative AI for Software Testing – Udemy (Tarek Roshdy) Oct 2026
Core Focus: GenAI Foundations, Prompt Engineering for Testing, Managing AI Risks.

Courses

Software Testing & Quality Assurance Diploma (6-Months) *Route Academy* Aug 2026
Core Focus: Test Design, STLC, Agile Methodologies, Test Automation Fundamentals.

Frontend Development Diploma – Angular (6-Months) *Route Academy* Sep 2024
Core Focus: REST APIs, JavaScript, Angular Framework, SPA Architecture.

Skills

- **Test Management & Agile Tools:** Jira, Zephyr (Scale/Squad), ClickUp, Agile/Scrum Frameworks, Workflow Management, Bug Tracking.
- **Automation & Testing Frameworks:** Selenium, Cucumber, RESTful APIs, TestNG.
- **API & Database Testing:** Postman, Newman CLI, JMeter, API Automation, Mocking Services, SQL.
- **Programming & Web:** Java, Angular, JavaScript, HTML, CSS, C++, Python.
- **Generative AI & Prompt Engineering:** Prompt Optimization, AI-assisted STLC Processes, AI for Test Case Generation, AI Risk Management.

Projects

1. Graduation Project – Route Academy Aug 2026
OrangeHRM UI Automation Framework [GitHub] | [LinkedIn]

- Developed a scalable UI automation framework using Java, Selenium, and TestNG for core HR workflows.
- Implemented POM and Data-Driven Testing (via JSON/Jackson) to ensure maintainable and reusable test scripts.
- Integrated Allure Reporting and Log4j2 for execution tracking, and utilized ThreadLocal for parallel execution stability.

2. Graduation Project – Tanta University Jun 2026
Tegy Tourism Platform [GitHub] | [LinkedIn]

- Led QA efforts for a comprehensive tourism platform (Web & Mobile App) connecting travelers and organizers.
- Conducted exploratory and manual testing, reported defects, and collaborated with cross-functional teams to verify fixes.

3. Professional Work Projects (iNNOTECH) Jan 2026 – Present
Enterprise Systems Testing

- Perform end-to-end testing on complex business platforms including ERP, CRM, HR, and Financial Accounting systems, ensuring strict adherence to business logic and data integrity.

4. Additional Testing Projects

- **Swag Labs UI Automation Framework:** Jul 2026
  Engineered a Maven automation framework using Selenium and POM for e-commerce flows. [GitHub] | [LinkedIn]
- **End-to-End API Testing & Automation:** May 2026
  Executed CRUD testing on Restful Booker & Library APIs using Postman and Newman. [GitHub] | [LinkedIn]
- **OpenCart – Agile Testing Project:** Mar 2026
  Applied Agile/Scrum methodologies to manage Epics and tasks in Jira. [LinkedIn]
- **Guru99 Bank – Manual Testing Project:** Feb 2026
  Executed comprehensive manual testing lifecycles utilizing Zephyr for test management. [GitHub] | [LinkedIn]
