

Abdelrahman Eltabaa

QC Software Engineer

012-126-37455 | abdo.tabaa5@gmail.com | Cairo, Egypt
LinkedIn | GitHub | Portfolio

Professional Summary

Computer Engineering graduate and QC Software Engineer with a strong foundation in **Software Testing, Quality Control, and Agile/Scrum methodologies**. ISTQB CTFL v4 certified, with hands-on experience in **Manual Testing, API Testing, Database Testing & Automation**. Skilled in **defect tracking, UI/UX testing**, and utilizing modern **project management tools** for efficient **test case management**. Passionate about **Shift-Left testing** and delivering high-quality, fault-tolerant software through effective collaboration and continuous improvement.

Professional Experience

Quality Assurance Engineer

iNNOTECH

Sep 2025 – Present

On-site

- Executed comprehensive manual, functional, and regression testing for enterprise business systems (ERP, CM, CRM, HR, Financial), ensuring system reliability and adherence to strict business logic.
- Architected detailed test plans and scenarios mapped directly to complex business requirements to maximize test coverage.
- Administered defect lifecycle and task tracking utilizing **ClickUp** and Jira, streamlining bug reporting and enhancing cross-functional Agile team collaboration.
- Conducted robust API testing using Postman to validate backend services, request/response structures, and data integrity.
- Leveraged **Generative AI (GenAI)** across the **STLC** to optimize test planning, accelerate test case design, and elevate overall testing efficiency.
- Collaborated actively within an Agile/Scrum environment, verifying complex workflows, participating in sprint ceremonies, and driving continuous quality improvements.

Education

Tanta University

Bachelor of Engineering, Computer Engineering

Jun 2026

- Cumulative GPA: Excellent

Certifications & Diplomas

ISTQB® Certified Tester Foundation Level (CTFL v4) – ID: 260422018

Core Focus: Testing Fundamentals & Principles (v4 Updates), Agile Testing & SDLC, Static & Dynamic Testing Techniques, Test Management, and Defect Lifecycle.

ISTQB® Certified Tester Mobile Application Testing (CT-MAT)

Core Focus: Mobile Device Types, Mobile Testing Types, Test Automation, and Emulators/Simulators.

ISTQB® Certified Tester - Testing with Generative AI (CT-GenAI)

In Progress (Preparing)

Core Focus: GenAI Foundations, Prompt Engineering for Testing, Managing AI Risks (Hallucinations, Bias, Privacy), and AI-Supported Test Infrastructure.

Software Testing & Quality Assurance Diploma (6-Months)

Route Academy

Core Focus: Manual & Agile (SDLC, STLC, Bug Reporting), Automation & API (Postman, Java OOP, Selenium, TestNG), Tools (Jira, SQL), Advanced (Mobile & Performance Testing).

Frontend Development Diploma – Angular (6-Months)

Route Academy

Core Focus: REST APIs, JavaScript, Angular Framework, HTML, CSS, SPAs.

Skills

- Test Management & Agile Tools:** Jira, Zephyr (Scale/Squad), Agile/Scrum Frameworks, Workflow Management, Bug Tracking.
- Testing Types & Methodologies:** Manual Testing, Functional Testing, UI Testing, Regression Testing, Smoke Testing, Shift-Left Testing.
- Automation & Testing Frameworks:** Selenium, Cucumber, RESTful APIs, TestNG.
- API & Database Testing:** Postman, Newman CLI, API Automation, Mocking Services, SQL.
- Programming & Web:** Java, Angular, JavaScript, HTML, CSS, C++, Python.
- Test Artifacts:** Test Cases, Test Scenarios, Bug Reports, Requirement Traceability Matrix (RTM).
- Concepts:** SDLC, STLC, Defect Lifecycle, Page Object Model (POM), Data-Driven Testing.
- Soft Skills:** Team Collaboration, Attention to Detail, Analytical Thinking, Problem Solving, Communication Skills.

Projects

Graduation Project: OrangeHRM UI Automation Framework (Route Academy)

[GitHub]

- **Advanced Architecture:** Engineered a scalable UI automation framework using **Java, Selenium, and TestNG**, featuring **ThreadLocal** WebDriver for safe and efficient parallel test execution.
- **Design Patterns & AI Integration:** Implemented **POM (Page Object Model)** with chainable methods for maximum maintainability. Leveraged **AI tools** to accelerate test script generation and refine automation logic.
- **Data-Driven & Logging:** Executed Data-Driven Testing utilizing **JSON & Jackson**. Integrated **Allure Reporting** for comprehensive visual test steps and **Log4j2** for deep execution tracking and failure analysis.
- **Stability & Reliability:** Eliminated flaky tests by strategically employing **Explicit Waits** and developing a custom **TestNG Retry Mechanism**, ensuring robust end-to-end validation of complex HR workflows.

Swag Labs UI Automation Framework

[GitHub] | [LinkedIn Demo]

- **Framework Architecture:** Designed and developed a scalable UI automation testing framework from scratch utilizing **Java, Selenium WebDriver, TestNG, and Maven**.
- **Design Patterns:** Implemented the **Page Object Model (POM)** design pattern to ensure robust code maintainability, reusability, and separation of test logic from page locators.
- **Data-Driven & Synchronization:** Engineered **Data-Driven Testing** capabilities by parsing external test data from **JSON files**. Strategically applied **Explicit Waits** to handle synchronization issues, significantly improving test stability and reducing flaky executions.
- **Test Coverage & Reporting:** Automated end-to-end critical business flows, including secure login validation, inventory management, and cart verification. Integrated structured **TestNG reporting** to track execution status and generate comprehensive test results.

Graduation Project: Tegy - Complete Tourism Platform (Tanta University)

[Live Platform] | [LinkedIn Demo]

- **Overview:** A complete tourism platform connecting travelers with activity organizers, featuring a Website, Mobile Application, Organizer Dashboard, and Admin Dashboard.
- **QA & UI/UX Role:** Designed intuitive interfaces using Figma. Conducted exploratory testing, executed manual test cases, reported bugs, and verified fixes alongside the development team.

End-to-End API Testing & Automation Project

[LinkedIn Demo]

- **Scope & Lifecycle:** Conducted complete CRUD lifecycle testing across a multi-collection ecosystem, including a Restful Booker booking system and a Library API.
- **Automation & Scripting:** Authored robust test scripts and assertions for schema accuracy, response integrity, and validation codes, achieving a 100% Pass Rate.
- **Dynamic Data Handling:** Built scalable test collections using Pre-request scripts and dynamic environment/collection variables to seamlessly pass authorization tokens and record IDs.
- **Newman CLI & Reporting:** Streamlined testing execution by moving to command line (Newman CLI) to simulate CI/CD readiness.

OpenCart E-commerce Website - Agile Testing Project

[LinkedIn Demo]

- **Agile Integration:** Applied Agile/Scrum methodologies within a team to test OpenCart, managing Epics, User Stories, and Tasks.
- **Test Management (Zephyr):** Designed and executed test cases, alongside managing test cycles and execution using Zephyr.
- **Defect Tracking (Jira):** Navigated defect lifecycle by tracking software bugs through Jira, improving bug reporting.

Guru99 Bank - Manual Testing Project

[Project Documentation] | [LinkedIn Post]

- Completed full Manual Testing cycle from SRS Analysis to Regression Testing.
- Designed, executed, and documented detailed Test Cases and Test Scenarios.
- Deliverables included Test Cases, RTM, and comprehensive Bug Reports.

Frontend & Software Development Projects

[GitHub Repository]

- **Testing Impact:** Built SPAs using Angular, HTML, CSS, and JS. Deep knowledge of DOM structures enables highly efficient element identification (locators) for test automation.

Training & Courses

Software Testing Diploma (6 Months)

Route Academy

- **Manual & Agile:** SDLC, STLC, Manual Testing, Test Case Design, Bug Reporting, ISTQB Prep, Agile (Scrum).
- **Automation & API:** API Testing (Postman), Java Programming & OOP, Selenium WebDriver, Cucumber, TestNG.
- **Tools & Technologies:** Jira, Trello, Database Testing (SQL), Git, GitHub, Web Fundamentals (HTML, CSS, JS).
